You don't see many birds in winter. Most have left your area. Those that stay are not as active. Activity uses energy that is needed to keep warm. The worst problems for birds in winter are getting enough heat and holding on to the heat once it is made. These are problems for all birds. But it is especially true for very small ones. They cannot find enough food. The weather stays so cold for so long that they cannot eat enough to keep alive. But birds have many ways of fighting the cold.

**№ 3.** Study the two photographs. Be ready to compare and contrast the photographs:

- give a brief description of the photos (action, location)
- say what the pictures have in common
- say in what way the pictures are different
- say what kind of sleep presented in the photos you'd prefer
- explain why

You will speak for not more than 2 minutes (10–12 sentences). You have to talk continuously.
