1. Thoughtless behaviour
2. Benefits of private business
3. Too complicated to use
4. Bad for business
5. Science brings hope
6. Road incident
7. More parking places
8. Personal choice

**A.** City centre parking is expensive and many important roads are now closed to private transport. This would be fine — if public transport was cheap and convenient, but it is neither. The result is that people are avoiding the city centre so restaurants, cinemas and shops are closing.

**B.** The motorcyclist drew along side and I heard abusive language as he banged on the car roof. I immediately locked the car doors and tried to work out what was wrong. He then shouted that I had almost collided with him. Truth to tell — I didn't see him until now. I tried to apologize but he wouldn't listen.

**C.** They now have cars that run on electricity, solar power and even on vegetable oil. New petrol engines are super efficient and make less harmful emissions. More people are working from home because of advances in communication technology and computer security. At last we have some grounds for optimism.

**D.** As she approached the traffic lights the driver in front of her tipped out a mess of fast food boxes, polystyrene cups and chip bags. She pressed her horn angrily. "Why don't people consider what they do", she wondered helplessly. "Someone will have to clear this up and we all have to pay for it."

**E.** Sarah has worked for herself more than 10 years now. It had been risky but now her interior decoration business is a success. She loves being her own boss. It constantly amazes her that her friends in big corporations believe they have job security. How can they think this way when these companies are constantly firing people to make bigger profits?

**F.** It was not easy deciding. It never is when buying a new car. Reliability and comfort are big issues as are fuel economy, maintenance and so forth. A car has to feel right as well. Price and value for money are also critical. But in the end Ralph made his decision confident that it was just the right one for him.

**G.** Jane studied the small print. To make a successful insurance claim for her accident she needed so much information. Several complicated forms took hours to complete. She then needed three independent quotations, a witness statement, and a police statement and after everything she still had to pay the first \$500 anyway.

A great fight still goes on. The question is: should students wear school uniform? As with most things, there are two sides to the debate. Some people say that all schools should introduce uniforms. Others are sure that school uniforms are old-fashioned. However, both arguments have experts on their side. There is no clear answer. Let's look at the pros and cons of it.

Many experts believe that students who wear school uniforms study much better than those who don't. This is because you don't have to worry about what you are wearing each day. As a result your attention improves and you learn to concentrate better on your studies. Wearing a uniform in calming colours makes you feel more serious and responsible.

They say if you wear a uniform then you won't behave in a violent or inappropriate way at school. A uniform is a rule and rules must be obeyed. Research showed that students in uniforms don't play as many tricks on their classmates, tease or bully them as much as their casually dressed mates.

Everyone wants to look their best and better than their classmates. Everybody wants to be popular and wear the latest fashions. However, not all students have enough money to buy stylish clothes. Uniforms make them all equal, social differences are not seen. No one wears expensive brands. Everyone wears the same thing, exactly the same brand. With a uniform, there is less competition in class.

School uniforms, however, are not always cheap for parents, especially if there are two or more children in a family and they all go to school. Parents can't buy any skirt or trousers they want. They can't shop in the sales either. What is more, many schools have several uniforms such as an everyday uniform, a formal uniform for special events and a uniform for P.E. classes.

Students in uniforms look the same. Uniforms don't give students individuality so they have to look for other opportunities to express themselves. For example, they might start using make-up early, behaving badly or wearing bright accessories as a reaction against it. It's not the answer.

Finally, there's comfort. Lots of students complain that they feel uncomfortable when they wear uniforms in class. Some children have sensitive skin and like to wear 100% cotton clothes. Uniforms are often made from synthetics, such as polyester which is harmful for a child's skin, especially if the child spends the whole day at school.

And we are back to the question: to wear or not to wear?
